PRESS RELEASE

EURO AREA INVESTMENT FUND STATISTICS

APRIL 2015

In April 2015, the amount outstanding of shares/units issued by euro area investment funds other than money market funds was €18 billion higher than in March 2015. This increase was due to net issues of shares/units, which was partially offset by decreases in share/unit prices.

The **amount outstanding of shares/units issued by euro area investment funds other than money market funds** increased to €9,439 billion in April 2015, from €9,421 billion in March 2015. Over the same period, the amount outstanding of shares/units issued by euro area money market funds increased to €1,016 billion, from €1,014 billion.

Transactions¹ in shares/units issued by euro area investment funds other than money market funds amounted to €65 billion in April 2015, while transactions in shares/units issued by money market funds amounted to €14 billion.

The annual growth rate of shares/units issued by euro area investment funds other than money market funds, calculated on the basis of transactions, was 8.8% in April 2015, while the annual growth rate of shares/units issued by euro area money market funds was 3.2%.

In terms of the **breakdown by investment policy**, the annual growth rate of shares/units issued by bond funds was 7.7% in April 2015. Transactions in shares/units issued by bond funds amounted to €29 billion in April 2015. The annual growth rate and monthly transactions of equity funds were 3.0%

¹ Transactions in shares/units issued mainly reflect the difference between shares/units issued and those redeemed, but may also include other transactions, such as those resulting from dividend payments received or distributed by the fund.

and €6 billion respectively in April 2015. For mixed funds, the corresponding figures were 15.8% and €33 billion.

Notes

- Money market funds are presented separately in this press release since they are classified in the monetary financial institutions sector within the European statistical framework, while other types of investment fund are classified in the other financial intermediaries sector.
- Further predefined tables, statistical data and methodological notes, as well as the advance release calendar, are available in the "Statistics" section of the ECB's website under [Investment fund statistics](#) and [The balance sheets of monetary financial institutions](#).

1) Annual percentage changes are calculated on the basis of transactions.

2) The breakdown by investment policy is generally based on the types of asset in which the investment funds primarily invest, usually on the basis of a stated strategy (e.g. if the fund invests primarily in shares and other equity, it is allocated to the "equity funds" category). Funds investing in both equity and bonds, without any prevalent policy for either, are allocated to the "mixed funds" category. Hedge funds are classified in line with the statistical definition set out in Guideline ECB/2014/15. In particular, they cover funds with relatively unconstrained investment strategies and few restrictions on the types of financial asset in which they may invest. If a fund cannot be classified as an equity, bond, mixed, real estate or hedge fund, it is included in the residual "other funds" category.

3) The shares/units of open-end funds can be redeemed out of the fund's assets. Closed-end funds are funds with a fixed number of issued shares/units.
